Subject: RE: New deadline of September 2! - current drafts from NCEA
Attachments: FY 16 Key Accomplishments - NCEA.docx; FY 16 Key Accomplishments - HHRA-NCEA.docx; FY16 Accomplishments - NCEA mgt.docx; FY16 Accomplishments - ACE-Climate-NCEA.docx

Sorry for the multiple email messages on this drill. Attached is the set of responses I have. The ACE package is good to go (in fact those have already gone with whatever ACE submitted).

HHRA-NCEA is just about complete. I rearranged the entries by Topic, and I think I got the T3 and T4 entries in the right places (feel free to check). Washington Division – Annie asks about Expo-First and I know we are in the process of posting in coming weeks. Want to add something?

The “NCEA” file is one accomplishment that summarizes programmatic and scientific support. I’ve started it, but it is just a work in progress, and I’m not sure it’s really going to work.

The “NCEA mgt” file is on management or organizational accomplishments, also a work in progress.

Subject: RE: New deadline of September 2! - sharing current draft of HHRA/NCEA accomplishments

Hi Mary

Thanks so much for sharing the compilation to date. I have added the HHRA RMS# in case that helps tracking for OPARM and highlighted the HHRA APR / output in yellow. Obviously the APR in the HHRA FY16 plan is what HHRA would want to report. To that end, I would note that many APR for IRIS are not being reported as accomplishments in this compilation. Per the comment in the attached Word file, this is at odds with HHRA emphasizing all of the components are major accomplishments as each (e.g., initial scoping packages) are considered APR. And while we didn't hit the goal for the final # of assessments, we did achieve the APR for this one:

HHRA Project 1 (RMS 1.211.4) External peer review drafts (ERD) submitted for ORD IOAA clearance (ETBE RDX tert-butanol)

I think we should list all of what IRIS did in terms of the other APR as well.

Additionally, some HHRA key products were not included and I have either alerted the indicated PL about these or am doing so now and indicating status as far as I know:

HHRA APR MIA:

HHRA Project 2 – IRIS Update (Vince Cogliano)

HHRA Project 2 (RMS 1.221.1) Develop decision process for update

HHRA Project 3 – Debra is working on these as Steve is out

HHRA Project 3 (RMS HHRA 2.211.2.4.1) ISA contribution to the Draft IRP for review of the primary and secondary NAAQS for particulate matter

HHRA Project 3 (RMS HHRA 2.211.2.7.1) ISA contribution to the Draft IRP for review of the secondary NAAQS for oxides of nitrogen and sulfur

HHRA Project 3 (RMS HHRA 2.211.3.6.2) First Draft ISA for Sulfur Oxides – Primary NAAQS (Health Criteria)

HHRA Project 3 (RMS HHRA 2.211.3.7.2) First Draft ISA for Oxides of Nitrogen and Sulfur-Ecological Criteria

HHRA Project 3 (RMS HHRA 2.211.4.5) Final ISA for Oxides of Nitrogen – Health Criteria

HHRA Project 6 – Mike Wright and Deborah Segal

HHRA Project 6 (RMS HHRA 3.223) Report from epigenetics workshop

HHRA Project 8 – John Stanek and Jay Zhao

HHRA Project 8 (RMS HHRA 4.222) Scott Wesselkamper et al paper on new approaches for POD (related to RapidTox) -- this is not yet due so may need to ask NCEA CIN what they wish to do?

HHRA Project 8 (RMS HHRA 4.224) ExpoFIRST – We have correspondence from Jackie that she already sent this in to Victor?

HHRA Project 9 – Debra Walsh and Maureen Johnson – Debra is working on this with Allen Davis

HHRA Project 9 (RMS HHRA 4.231.5.2) CatReg Module Release and Training

As we know, NCEA is incredibly productive — quite a list!

Annie

Subject: RE: New deadline of September 2! - sharing current draft of HHRA/NCEA accomplishments

Hi everyone. I've compiled what I've received for HHRA/NCEA. (The ACE/NCEA accomplishments that I sent previously are in a separate file, and I'm not resending).

This is so you can see what we have so far, and others can add to the compilation.

I haven't edited anything, other than change the goal on a few. The instructions asked us to list the "strategic goal" and that means EPA's strategic goals (<https://www.epa.gov/planandbudget/strategicplan>). I think all of ours fall under Goal 4, but could also be under other goals. Mike and Annette – if you want to replace with Goal 3 that's fine, or it could be both Goals 3 and 4.

FYI, I'm working on a separate "NCEA" accomplishment on scientific support to program offices that crosses research programs. Will send around later.

Hi Mary,

Here are the accomplishment write ups from IRIS. Hope these work.
Sue

Subject: New deadline of September 2! - Call for key FY16 accomplishments and challenges for the FY16 Annual Performance Report, Agency Financial Report, and ORD Organizational Assessment

One important update – John reached out to OPARM this morning and heard that they were giving another NPD an extension to September 6, so we also have more time. Please send me achievements by Friday, September 2, so they can be packaged and reviewed by Mike and others next Tuesday.

I'll share an update on the list of achievements that I know are in the works, in addition to the ACE/NCEA achievements from the global program:

David Bussard drafted one for the 3 science workshops held this year (epigenetics, temporal, systematic review)

Ila Cote drafted one for the NAS meeting on the iAs draft assessment in December.

Sue Rieth has several in the works:

- 2 postings (ammonia and TMBs)
- 2 public meetings (May and June, what includes RDX, TBA, and BaP)
- IRIS multi-year agenda

Abdel is working on something for our international RATE training activities

I'm copying Annie, because she and John also need to submit achievements for HHRA. Since the NPD and LC were asked to do the same thing, there will be duplicates, and can simply submit a package with HHRA/NCEA achievements.

Subject: Tomorrow please! - Call for key FY16 accomplishments and challenges for the FY16 Annual Performance Report, Agency Financial Report, and ORD Organizational Assessment

Hi everyone. Our contribution to FY16 accomplishments is due Wednesday.

I'm attaching a starter list -- the accomplishments compiled by our global change research team (Thanks NCEA-W!)

At tomorrow's DD meeting, I'm going to ask how many more we will add to the list and we need to get them written up quickly.

- Jeff circulated a list of water-related activities, but I'm not sure how many are specific *accomplishments* for the FY. Lots of program support, so maybe we have an accomplishment called "scientific support to EPA programs and regions" with multiple bullets?

IRIS: Two final assessments, TMBs and ammonia. Other things from Gina's list of a couple of months ago?

IRIS-related Workshops: Epigenetics, temporal, systematic review

ISA-related: peer input? Highlight the NOx ISA that is in the process of completion?

NCEA-W started a list (other than global) last week – anything specific to highlight?

PPRTV package for FY16

Major manuscripts or reports from RMS?

Subject: Transmittal notification: 16-A-OPAR-000111 - Call for key FY16 accomplishments and challenges for the FY16 Annual Performance Report, Agency Financial Report, and ORD Organizational Assessment

ORD ACTION TRANSMITTAL

Transmittal Subject:	Call for key FY16 accomplishments and challenges for the FY16 Annual Performance Report, Agency Financial Report, and ORD Organizational Assessment
Response Due Date:	08/31/2016
Contact Organization:	OPARM
Background Information	

Each year the Agency is required to produce three performance-related documents that require input from ORD:

- The FY16 Organizational Assessment, a one page document highlighting key FY16 events, accomplishments, challenges and management actions, as well as efficiencies, cost-savings, and administrative accomplishments.
- The *Agency Financial Report* and the *Annual Performance Report*, which are a discussion of FY16 accomplishments and challenges.

Rather than conduct separate data calls for each of these efforts, ORD will gather the information using a single template. Responses from NPDs and LCOs will be used by OPARM to draft the FY16 Organizational Assessment as well as the FY16 *Agency Financial Report* and the FY16 *Annual Performance Report*. All materials will be reviewed by the IOAA prior to submission to OARM and OCFO.

Analysis

By **Wednesday, August 31st**, NPDs and LCO Directors are asked to complete the attached template, highlighting key FY16 research accomplishments, challenges and management actions, as well as efficiencies, cost-savings, and administrative accomplishments.

Please submit one completed template per Program/LCO.

Action/Instruction for Response

Please submit completed templates to Julie Hyman and Sean Paul, OPARM (hyman.julie@epa.gov, paul.sean@epa.gov). If you need assistance or have questions, please contact Julie at 202-564-2878.

Point of Contact:	Julie Hyman [Hyman.Julie@epa.gov]
